

Resume

Pierre Saint-Cast

Dr. Pierre Saint-Cast.
©Fraunhofer ISE

Pierre Saint-Cast was born in Lorient, France in 1982. In 2007 he completed a double degree, receiving the Master of Science and the Master of Micro and Nanoelectronics.

In 2008 came to Fraunhofer ISE to perform his doctoral work, receiving his doctoral degree in 2012 from the University of Constance. His research interests are the development of passivation layers for solar cell applications (in particular plasma enhanced chemical vapor deposition Al_2O_3 layers) and the analytical modeling of the electrical transport in silicon solar cells.
